MADE IN DENMARK
..designed for the world!

DROP SPREADER

Spreading width up to 125 cm.

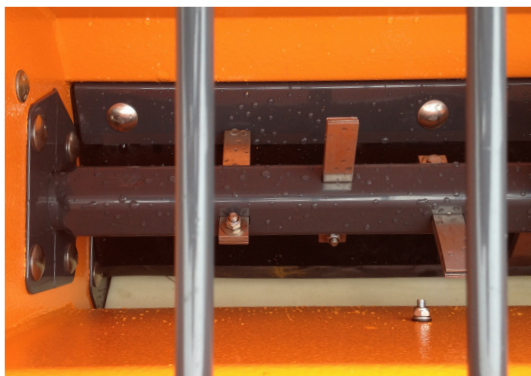

DISC SPREADER

Adjustable spreading of up to 6 metres

QUICK MOUNTING

Mounted with Vitra Quick-shift

The spreader is equipped with a bottom-mounted agitation system that ensures an even distribution of the spreading material.

All components are made of stainless steel or are coated in the C5 corrosion class, ensuring a long service life for the spreader.

Function switching is easy and comfortable, carried out directly from the cab, with driving automation available as an option.

COMBI SPREADER

VITRA C-SERIES | FWS200 / FWS200XL

Combi Spreader with High Flexibility

This spreader combines the best qualities of both roller and disc spreaders, offering great flexibility and enabling efficient winter maintenance on everything from small paths and sidewalks to parking areas and other larger surfaces – all with the same machine.

Switching between roller and disc spreading functions is quick and easy at the push of a button. An optional control panel with driving automation is available, allowing adjustment of material dosage and spreading width directly from the cab.

When combined with Vitra's dump bed, the capacity of spreading material can be increased by up to 350 liters. The material can be continuously tipped directly into the spreader, ensuring a good working environment and high efficiency throughout the entire workday.

MODEL	FWS200 (C2-SERIE)
Volume:	120 l.
