MADE IN DENMARK
..designed for the world!

LOW NET WEIGHT

Made from durable material

HIGH PAYLOAD

Strongly built construction

QUICK MOUNTING

Mounted with Vitra Quick-shift

The truck bed is built as a strong steel/aluminium construction, which ensures low weight and large load capacity.

As an option, the truck bed can be mounted with hydraulic tilt for easy unloading - For example, directly in a rear-mounted spreader.

The truck bed is constructed with a completely flat bottom and fold-down aluminium sides and tailgate.

TRUCK BED

VITRA C-SERIES | RED7015 / RED7016

The original truck bed is the perfect complement to the Vitra. Its strong yet lightweight construction, combined with Vitra's high payload capacity, provides both a high useful load and additional cargo space. It comes as standard with fold-down aluminium sides and tailgate, with a tarpaulin and tipping trailer available as optional accessories.

As an option, the truck bed can be equipped with hydraulic tipping, allowing for quick and efficient emptying directly from the cab. When combined with selected spreading solutions, the hydraulic tipping function also enables additional spreading material to be tipped directly into the spreader, improving working conditions and ensuring efficient operation throughout the working day during the colder months.

MODEL	RED7015 (C2-SERIES)
-------	---------------------

Length:	1030 mm.
---------	----------

Width:	871 mm.
--------	---------

Hight:	300 mm.
--------	---------

Volume:	240 l.
---------	--------

Pay load:	500 Kg.
-----------	---------

Weight:	60 Kg.
