MADE IN DENMARK
..designed for the world!

LONG REACH

Reach of 2.2 or 3.3 metres.

USER-FRIENDLY OPERATION

Easy control via the VITRA joystick.

QUICK MOUNTING

Standard A-frame

The Boom arm is quick and easy to mount using the A-frame. It is easily controlled via VITRA's standard joystick.

The Boom arm offers extended reach without compromising machine stability and is available in 2.2 m and 3.3 m versions.

Despite its extended reach, the Boom arm folds in for transport, keeping the machine as compact as always.

BOOM ARM

VITRA C-SERIES | RED5400 / RED5415

This lightweight Boom arm provides a solution that can be fitted to even the smaller VITRA models, without compromising the machine's stability or driving performance.

The Boom arm is available in two versions with a reach of 2.2 or 3.3 metres and can be equipped with a cutting head for efficient trimming of windbreaks and other vegetation.

It is also well suited for hedge trimming and can be fitted with a 100–130 cm hedge trimmer that efficiently shreds the cut material, reducing the amount of cuttings requiring collection.

The Boom arm benefits from VITRA's high stability and is easily and intuitively controlled via the VITRA joystick. This eliminates the need for an additional, space-consuming control panel while ensuring good ergonomics.

MODEL	RED5400
-------	---------

Working reach: (Vertical)	2200 mm.
---------------------------	----------

Working reach: (Horizontal)	1450 mm.
-----------------------------	----------

Weight: (without attachment)	90 Kg.
------------------------------	--------

MODEL	RED5415
-------	---------

Working reach: (Vertical)	3300 mm.
---------------------------	----------

Working reach: (Horizontal)	2200 mm.
-----------------------------	----------

Weight: (without attachment)	130 Kg.
