MADE IN DENMARK
..designed for the world!

LONG REACH

Working reach of up to 3.6 m.

HEDGE, SLOPE OR VERGE

Various cutting attachments

QUICK MOUNTING

Standard A-frame

The Boom arm offers a working reach of up to 3.6 metres, which can be fully utilised without compromising machine stability.

The Boom arm Pro can be fitted with a hedge trimmer, Weed brush or flail mower for cutting slopes and verges.

The Boom arm is easily and intuitively controlled directly via the VITRA control panel, regardless of the attachment fitted.

BOOM ARM PRO

VITRA C3-SERIES | RED5650

The robustly designed Boom arm Pro is the perfect match for the powerful VITRA C3 models. With a reach of up to 3.6 metres, it can be fully utilised without compromising the machine's stability or driving performance.

Its extended reach makes the Boom arm ideal for tasks beyond the machine's normal operating area, such as working on slopes, in ditches or at height.

The Boom arm can be equipped with a range of cutting attachments, including a heavy-duty flail mower with a 100 cm cutting width for efficiently mulching even dense vegetation, or a 100–130 cm hedge trimmer that finely shreds the cut material, reducing the amount of cuttings requiring collection.

A weed brush is also available for effective weed control in areas that are otherwise difficult to reach.

The Boom arm benefits from VITRA's exceptional stability and is operated easily and intuitively via the VITRA joystick. This eliminates the need for an additional, space-consuming control panel while ensuring excellent ergonomics.

MODEL (Boom Arm Pro)

RED5650

Working reach:

up to 3600 mm.

Transport width:

1900 mm.

Weight: (without attachment):

500 Kg.
