MADE IN DENMARK
..designed for the world!

ROTATING BRUSH

Brush diameter: 800 mm.

USER-FRIENDLY OPERATION

Easy control via the VITRA joystick.

QUICK MOUNTING

Standard A-frame

The Brush features 3D 360° angle adjustment and two powerful swing cylinders - easily controlled via the VITRA standard joystick.

The impressive 800 mm brush head features 50 heavy-duty wire brushes for powerful weed removal.

Despite its robust construction and large brush head, the brush remains compact and ensures excellent visibility.

WEED BRUSH PRO

VITRA C-SERIES | RED3750

The Weed Brush Pro is a heavy-duty attachment designed for efficient mechanical weed control in combination with VITRA.

Its robust steel construction, two powerful hydraulic swing cylinders and 800 mm brush head with 50 heavy-duty wire brushes provide effective weed removal, even in demanding conditions.

The brush head features 3D 360° angle adjustment and rotates at up to 250 rpm. Combined with fully adjustable brush pressure, the Weed Brush Pro enables efficient weed removal at working speeds of up to 20 km/h. A heavy-duty rubber guard provides effective protection of the surrounding area.

The Weed Brush Pro is easily and intuitively controlled via the VITRA joystick, with no need for an additional control panel.

An optional hydraulically adjustable edge cutter enables efficient trimming along kerbs and edges.

As an option, the Weed Brush Pro can also be equipped with a suction head. Combined with the VITRA sweeping-suction container, this allows weed removal and collection to be carried out in a single operation.

MODEL	RED3750
Working width:	180 cm.
Working speed:	15-20 Km/h.
Brush diameter:	800 mm.
Number of wire brushes:	50 pcs.
Weight:	180 Kg.
