MADE IN DENMARK
..designed for the world!

DISC SPREADER

Spreading width from 1 to 6 m.

SMART APP CONTROL

Fast operation and GPS control

QUICK MOUNTING

Mounted with Vitra Quick-shift

The spreader can be supplied with a quick-mount system for fast installation and is optionally available with a storage trolley.

The spreader is fitted with a hopper vibrator for a consistent material flow, even when using damp spreading material.

The spreader capacity can be increased from 120 to 205 litres with a hopper extension, adding just 7 kg to the overall weight.

DISC SPREADER

VITRA C-SERIES | RED4505

The Hiltip Disc Spreader is a compact spreader with low weight and a 120-litre capacity, which can be increased to 205 litres by fitting a hopper extension.

The hopper is made of polyethylene (PE) and fitted with an electrically driven stainless-steel spreading disc.

The spreader is suitable for salt, sand and grit and is equipped with a hopper vibrator to prevent bridging and ensure a consistent material flow, even when using damp spreading material.

As standard, the spreader features smart app control with a supplied mobile phone, allowing spreading width and material quantity to be easily adjusted with speed-dependent control.

The system also features GPS control and mapping, allowing routes to be planned, spreading parameters defined and the actual work performed to be documented.

MODEL	RED4505
Capacity: (with hopper extension)	120 l. (205 l.)
Length x Width:	600 x 800 mm.
Height: (with hopper extension)	820 mm. (1050 mm.)
Spreading width:	1-8 m
Spreading material:	Salt, sand & grit (max. Ø8 mm.)
Weight: (with hopper extension)	58 Kg. (65 Kg.)
