..designed for the world!

LOW NET WEIGHT
Made from durable material

HIGH PAYLOAD
Strongly built construction

QUICK MOUNTING
Mounted with Vitra Quick-shift

UNIVERSAL MOUNTING FRAME
VITRA C-SERIES | RED7000 / RED7005

As the name indicates, the Vitra Universal mounting frame allows for universal mounting of e.g. own attachments, or own truck bed on Vitra. Despite a strong construction, the frame has a low net weight, which allows full utilization of Vitra's large load capacity.

The frame is mounted with Vitra Quick-shift and can optionally be supplied with a sales trolley, as is known from e.g. Vitra's sweeping system, grass collector and tray, which ensure easy and effortless removal and installation as well as easy storage.

The frame is pre-drilled with universal mounting holes but can be easily adapted regardless of what is desired to be fitted.

The universal mounting frame ensures the possibility of quick mounting of own attachments with Vitra Quick-shift.

The universal frame is available in a version for Vitra C2 and one for Vitra C3 - Both with strong construction and high payload.

The Universal Frame offers many options for universal assembly and can optionally be used with Vitra's parking trolley.
