MADE IN DENMARK  
..designed for the world!

## LARGE CUTTING WIDTH

Cutting width: 137 or 157 cm

## REAR-EJECTION

Mulching function as option

## QUICK MOUNTING

Standard A-frame

The mower is designed for Nordic climate conditions and delivers a powerful, professional cutting performance with high capacity.

The cutting deck can be tilted up for easy cleaning and maintenance. A hydraulic tilting function is available as an option.

The mower's powerful hydraulic motor is optimized for Vitra, ensuring high performance with minimal power loss.

# ROTARY MOWER

VITRA C-SERIES | KL6010 / KL6016

## Professional mowing solution for green areas

This rotary mower is designed for Nordic climate conditions and delivers a powerful and professional cutting result for efficient maintenance of green areas. The mower is supplied as standard with rear discharge and is optionally available with mulching or side discharge.

The mower is available in two versions with a working width of either 140 or 160 cm and is carefully adapted to Vitra, ensuring maximum performance and minimal power loss, while maintaining a minimum of vibrations in the cutting deck.

Combined with the noise-reducing PE cover, noise levels are minimized, making the mower ideal for use in noise-sensitive areas such as parks, residential areas, or golf courses.

The entire cutting deck can be tilted for easy cleaning and maintenance, and a hydraulic tilting function is available as an option for even easier handling.

All in all, a professional mowing solution characterized by efficient and clean cutting results, high performance, and easy handling, making it a perfect match for modern Vitra tool carriers.

MODEL	KL6010
Width / Cutting width:	1400 / 1370 mm.
Cutting height:	28 - 135 mm.
Weight:	202 Kg.
