MADE IN DENMARK
..designed for the world!

HOPPER BOTTOM AUGER

Ensuring efficient material flow

STAINLESS STEEL SPREADING DISC

Spreading width from 1 to 8 m.

QUICK MOUNTING

Mounted with Vitra Quick-shift

Made of stainless steel, the spreader has a net capacity of 350 litres and can hold up to 380 litres of spreading material when fully loaded.

The electrically driven spreading disc is made of stainless steel and allows an adjustable spreading width from 1 up to 8 metres.

The hopper is fitted with a 65 mm bottom-mounted stainless-steel auger, ensuring an efficient material flow to the spreading disc.

BULK SPREADER

VITRA C-SERIES | RED4508

Hiltip 380 Bulk Spreader is a high-capacity, lightweight spreader designed for mounting in a truck bed. It has a net capacity of 350 litres and can hold up to 380 litres when fully loaded.

The entire spreader, including the electrically driven spreading disc, is made of stainless steel, ensuring high corrosion resistance, a long service life and easy maintenance.

The spreader is suitable for salt, sand and grit and is equipped with a hopper vibrator to prevent bridging and ensure a consistent material flow, even when using damp spreading material.

As standard, the spreader features smart app control with a supplied mobile phone, allowing spreading width and material quantity to be easily adjusted with speed-dependent control.

The system also features GPS control and mapping, allowing routes to be planned, spreading parameters defined and the actual work performed to be documented.

MODEL	RED4508
Capacity:	350 l. (Gross capacity: 380 l.)
Length x Width:	1110 x 910 mm.
Height:	730 mm.
Spreading width:	1- 8 meter
Spreading material:	Salt, sand & grit
Weight:	120 Kg.

For additional data, please see the price list.

HILTIP STRIKESMART™

Innovative app control for fast operation with GPS
A mobile phone is supplied with the spreader.
