MADE IN DENMARK
..designed for the world!

HOPPER BOTTOM AUGER
Ensuring efficient material flow

STAINLESS STEEL SPREADING DISC
Spreading width from 1 to 8 m.

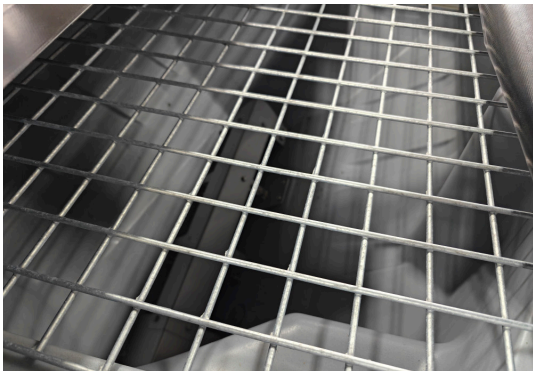

QUICK MOUNTING
Mounted with Vitra Quick-shift

The lightweight PE hopper has a net capacity of 500 litres and can hold up to 630 litres of spreading material when fully loaded.

The electrically driven spreading disc is made of stainless steel and allows an adjustable spreading width from 1 up to 8 metres.

The hopper is fitted with a 65 mm bottom-mounted stainless-steel auger, ensuring an efficient material flow to the spreading disc.

BULK SPREADER

VITRA C-SERIES | RED4510

The Hiltip Bulk Spreader is a high-capacity, lightweight spreader designed for mounting in a truck bed. It has a net capacity of 500 litres and can hold up to 630 litres when fully loaded.

The hopper is made of polyethylene (PE) and fitted with an electrically driven stainless-steel spreading disc.

The spreader is suitable for salt, sand and grit and is equipped with a hopper vibrator to prevent bridging and ensure a consistent material flow, even when using damp spreading material.

As standard, the spreader features smart app control with a supplied mobile phone, allowing spreading width and material quantity to be easily adjusted with speed-dependent control.

The system also features GPS control and mapping, allowing routes to be planned, spreading parameters defined and the actual work performed to be documented.

MODEL	RED4510
Capacity:	500 l. (Gross capacity: 630 l.)
Length x Width:	1200 x 900 mm.
Height:	920 mm.
Spreading width:	1- 8 m
Spreading material:	Salt, sand & grit
Weight:	145 Kg.

For additional data, please see the price list.

HILTIP STRIKESMART ™

Innovative app control for fast operation with GPS
A mobile phone is supplied with the spreader.
