# BULK SPREADER

The bulk disc-spreader for rear mounting is used for sidewalks, pedestrian streets, bicycle paths and other large areas. With a capacity of 300 l, centrally located above the rear axle of the machine, this robustly built spreader is suitable for the demanding user who has large areas to maintain.

The spreader can be used for sand as well as salt or granules, and has a spreading width from 1-6 m. The container is built with a practical foldable cover that keeps the material dry.

As standard, the spreader is supplied with a manual control, but is available as an option with automatic spreader adjustment, start / stop automatic, or automatic driving.

- Spreading plate in stainless steel
- Folding cover
- Made with Vitra quick shift
- Bottom screw conveyor
- Built-in safety grille
- Strong and robust construction

The spreader is fitted with a bottom-mounted auger, which ensures efficient feeding of the spreading material

The spreading disc is made of stainless steel which ensures long durability and provides optimal spreading

The spreader can be adjusted from 1 to 6 metres spreading width, and can be used for sand, salt and grit

Manufacturer:

**Lindholdt Maskiner A/S**

Industrivej 8  
DK-6818 Årre
