TRIPLEX MOWER

The fully hydraulic triplex mower is made for the professional user for big areas. With a working width of 2,5 or 3,0 metres, this rotary cutter cuts up to 30.000 m² pr. Hour

The tripartite cutting surface with hydraulic tiltable side-wings easily follows the contour of the surface. By default the mower is delivered with rear-ejection, but can optional be delivered with a Bioclip-kit

Furthermore, following additional options are available:

Hydraulic height adjustment, hydraulic tilt of moving deck, puncture-safe wheels, wide wheels

- Hydraulically mower with a hydraulic engine for each knife
- Tilttable side-wings with hydraulic safety-switch
- Robust build with strong steel shield with strong nylon-list

The hydraulic side-wings make it possible to easily transport the mower through traffic, despite its large working-surface.

The strong frame is installed with a flexible fixture, mounted to a standard Cat.1 A-frame

By default, the mower is delivered with rear-ejection, but can as option be elivered with Bioclip-kit.

Manufacturer:

Lindholdt Maskiner A/S

Industrivej 8
DK-6818 Årre
