VITRA GRASS COLLECTOR

High cutting quality
and optimal collection

Hydraulic tilt
Unloading from a 1900 mm height

Quick Mounting
Vitra Quick Mounting Bracket

VITRA

A strong Danish family..

GRASS COLLECTOR

We have developed this high-performance grass cutting system with collection for Vitra

The machine is made for customers with grass areas that are supposed to constantly look nice without having to mow several times a week. With a cutting width of 137 cm and a container capacity of 600 litres. The driver can fully exploit the large capacity in the small Vitra models, and reaches a capacity of up to 12,500 m²/t

The collector has unloading height of up to 190 cm, to ensure a lot of tipping possibilities for the driver. The 460 mm. big turbine ensures optimal suction, and an optimal filling up of the collector. Mounted with a centrally located suction hose an optimal flow of the grass is ensured, just as the machines manoeuvrability is top notch.

- Outstanding cutting results
- Central suction hose
- Unloading height in 190 cm.
- Compact design
- Cutting width of 137 cm
- Collector volume of 600 litres.

The collector has unloading height of up to 190 cm, to ensure a lot of tipping possibilities for the driver.

The system contains a high-quality mowing deck with high performance and manoeuvrability.

The mowing deck is mounted with a standard A-frame and equipped with strong stabilisers

Manufacturer:

Lindholdt Maskiner A/S

Industrivej 8
DK-6818 Årre

Tlf: +45 76 77 44 77

Mail: Info@lindholdt-maskiner.dk

Web: www.lindholdt-maskiner.dk

The grass collector is developed specifically for Vitra, and is the perfect solution for cutting and collecting in larger areas.

RED3820 (Vitra 2030/2037)

Brede:	1400 mm.
Længde:	4340 mm.
Højde:	1980 mm.
Aftipningshøjde:	1900 mm.
Klippebrede:	1370 mm.
Opsamler Volume:	600 l.
Lufthastighed:	170 Km/h.
Vægt:	Opsamler: 280 Kg.
	Klipper: 147 Kg.

Note: All dimensions are indicated where the unit is mounted on the machine
