VITRA

SWEEPING SUCTION UNIT

Large work capacity
Up to 2,1 meter sweep wide

Low water consumption
Adjustable water flow

Amazing suction power
Strongest suction sweeper of its class

VITRA

A strong Danish family..

SWEEPING SUCTION UNIT

Vitras ground-breaking suction sweeper effectively collects dirt and lower the dust discharge at the same time. The Vitra suction sweeper has obtained the highest approval of EUniteds certified PM 10/PM2,5 test.

The advantages of the system becomes clear when considering that these results achieved with a minimal water consumption. Vitra typically uses between 35 – 65% less water. Water is a limited resource, and at Vitra we emphasise protecting the environment as much as possible.

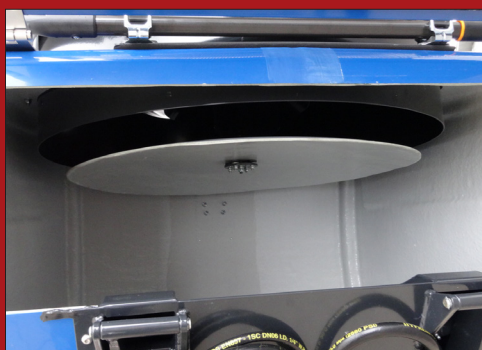

- 650 l. / 500 l. volume (Brutto/netto)
- 150 mm centre suction hose
- Undload high in 135 cm
- 80 litres water capacity
- 5 m. handheld suction hose
- Sweeping front with 2, 3 or 4 brushes

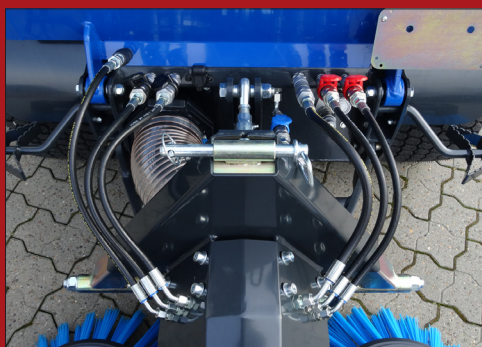

Vitra was in 2014 rewarded with an "innovation medal" on one of Germanys most esteemed fairs for "outstanding technology which protects the environment"

The suction unit is by default equipped with a 5 meter handheld suction hose which ensures great flexibility.

Vitra's suction unit uses a unique cyclone filter system which effectively cleans the air for particle dust.

The sweeping front is built with a standard A-frame, and can be delivered with 2, 3 or 4 brushes.

Manufacturer:

Lindholdt Maskiner A/S

Industrivej 8
