# VITRA TRUCK BED

With Vitra's original aluminium truck bed, we have developed an effective tool which is the perfect supplement for Vitra's robust build and large load capacity, just as it makes it possible to boost the effect of several spreading solutions, where it increases the capacity with up to 400 litres of spreading material.

The truck bed can additionally be delivered with hydraulic tilt, which makes easy and quick emptying directly in to a spreader, which improves both the working environment and effectivity in winter service. The truck bed is mounted with securing hooks in each corner and can by option be delivered with a cover to secure the load and keep it dry.

- Strong steel/alu construction
- Low weight and large load capacity
- Load capacity of up to 500 kilos
- Optional with hydraulic tilt
- Adjusted to fit selected spreader solutions
- Built with Vitra quick-change

*The truck bed is built as a strong steel/aluminium construction, which ensures low weight and large load capacity.*

*As an option, the truck bed can be mounted with hydraulic tilt for easy unloading.*

*The truck bed is equipped with flat floor, which is equipped with safety hooks in each corner.*

Manufacturer:

**Lindholdt Maskiner A/S**

Industrivej 8  
DK-6818 Årre

Tlf: +45 76 77 44 77

Mail: [Info@lindholdt-maskiner.dk](mailto:Info@lindholdt-maskiner.dk)

Web: [www.lindholdt-maskiner.dk](http://www.lindholdt-maskiner.dk)

As an option, the truck bed can be mounted with hydraulic tilt, so the truck bed can be used for e.g. several spreading solutions or just ensure an easy unloading.
