MADE IN DENMARK  
..designed for the world!

## HIGH CUTTING QUALITY

And optimal collection

## HYDRAULIC TILT

Unloading from a 1900 mm height

## QUICK MOUNTING

Mounted with Vitra Quick-shift

The collector has unloading height of up to 190 cm, to ensure a lot of tipping possibilities for the driver.

The system contains a high-quality mowing deck with high performance and manoeuvrability.

The powerful hydraulic motors ensure both higher performance and lower consumption.

# GRASS COLLECTOR

VITRA C-SERIES | RED3820

We have developed this high-performance grass cutting system with collection for Vitra. The machine is made for customers with grass areas that are supposed to constantly look nice without having to mow several times a week. With a cutting width of 137 cm and a container capacity of 600 litres.

The driver can fully exploit the large capacity in the small Vitra models, and reaches a capacity of up to 11,500 m<sup>2</sup>/t.

The collector has unloading height of up to 190 cm, to ensure a lot of tipping possibilities for the driver. The 460 mm. big turbine ensures optimal suction, and an optimal filling up of the collector. Mounted with a centrally located suction hose an optimal flow of the grass is ensured, just as the machines manoeuvrability is top notch.

MODELL	RED3820
Container volume:	600 l. (0,6 m <sup>3</sup> )
Width / Cutting width:	1400 / 1370 mm.
Cutting height:	28 - 135 mm.
Tip height:	1900 mm.
Air speed:	170 Km/h.
Weight - Container:	280 Kg.
Weight - Mower:	202 Kg.
