MADE IN DENMARK  
..designed for the world!

## HYDRAULIC TILTABLE SIDE-WINGS

Makes it easy to transport the mower

## REAR-EJECTION

With Bioclip option

## QUICK MOUNTING

Standard A-frame

The hydraulic side-wings make it possible to easily transport the mower through traffic, despite its large working-surface.

The strong frame is installed with a flexible fixture, mounted to a standard Cat.1 A-frame

By default, the mower is delivered with rear-ejection, but can as option be delivered with Bioclip-kit.

# TRIPLEX MOWER

VITRA C-SERIES | FS1100 / FS1300

The fully hydraulic triplex mower is made for the professional user for big areas. With a working width of 2,5 or 3,0 metres, this rotary cutter cuts up to 30.000 m<sup>2</sup> pr. Hour

The tripartite cutting surface with hydraulic tiltable side-wings easily follows the contour of the surface.

By default the mower is delivered with rear-ejection, but can optional be delivered with a Bioclip-kit

### Furthermore, following additional options are available:

Hydraulic height adjustment, hydraulic tilt of moving deck, puncture-safe wheels, wide wheels
