Standard A-frame

GRASS COLLECTOR

VITRA C3-SERIES | AA1011/1025

For the Vitra C3 series, we offer an efficient grass collector solution, with a powerful rotary mower.

A heavy duty built, hydraulically driven rotary mower with three blades and an adjustable cutting height of 30-100 mm is connected to the 1,200 l collection container via a 190 mm suction hose.

The powerful suction turbine on the collection container ensures optimal collection under all conditions and effectively shreds the collected material and blows it into the container.

The container is built with high tip, with unloading in 190 cm,

The system can be easily dismantled using the associated transport trolley, which are also used for storage.

Heavy duty rotary mower with three powerful blades and an adjustable cutting height of 30–100 mm.

190 mm diameter suction hose for efficient collection.

Container volume of 1.2 m³ and high tip with unloading in 190 cm. and a powerful turbine with high suction power.

MODEL	AA1011 / 1025
Cutting width:	1600 mm.
Cutting height:	30-110 mm
Container volume:	1,2m ³
Weight	470 Kg.
